PROFESSIONAL SUMMARY

Senior Software Engineer with 15+ years of experience designing and developing enterprise software, data-driven applications, and internal business tools using Python, C#, ASP.NET Core, ASP.NET MVC, SQL Server, and REST APIs. Currently supporting a US-based data team by developing internal automation tools, SQL-based analytics solutions, and software that improves operational efficiency. Strong background in software architecture, data engineering, backend development, and enterprise application modernization. Passionate about Artificial Intelligence, Large Language Models (LLMs), intelligent automation, and building AI-powered software that enables analysts and business users to interact with data using natural language. Recognized for quickly understanding complex business workflows and transforming them into scalable, maintainable software solutions.

WORK EXPERIENCE

Senior Analyst Developer — Dominion DMS (Remote)

Aug 2021 – Apr 2026

- Build and internal tolls using Python (Flask), Fast API and C#.
- Developed advanced SQL Scripts for complex business analysis.
- Improved database performance through query optimization.
- Performed large-scale data migration and validation.
- Designed reusable utilities for data quality improvement.
- Worked closely with business stakeholders to deliver software-driven solutions.

Senior Software Developer — KDS Accessories Ltd. (Chattogram)

Feb 2011 – Apr 2021

- Designed and developed enterprise applications used across multiple business departments using ASP.NET MVC and SQL Server 2019.
- Led development of HR Management System.
- Developed Claim Management System.
- Built Fixed Asset Management System.
- Built Production Management system for Button and SLP System (Desktop applications using .Net).
- Developed Online Employee Payroll & Attendance, Tax Management, PF Management solutions.
- Automated enterprise email delivery processes.
- Designed reporting solutions using SSRS, Crystal Reports, RDLC, and Stimulsoft.
- Developed scalable ASP.NET MVC applications using SQL Server backend and Stimulsoft as Reporting tools.

Software Development Expert (Part-time) — Taqniyah Interaction (Remote)

Apr 2021 – Dec 2021

- Built backend systems and RESTful APIs using Python / Django and MySQL.
- Developed scalable application components and integrated third-party services.

• TECHNICAL SKILLS

- **Languages:** C#, JavaScript, Python, SQL
- **Backend:** ASP.NET Core, .NET 9, ASP.NET MVC / .NET Framework 4.8, RESTful APIs, EF Core
Architecture: Clean Architecture, CQRS, Repository / Unit of Work, JWT Auth & RBAC
- **Frontend:** Bootstrap, JavaScript, jQuery, HTML5, CSS3, Razor
- **Databases:** SQL Server, PostgreSQL
- **DevOps & Tools:** Git, GitHub, GitLab, CI/CD (basic)
- **Practices:** Agile / Scrum, API Integration, Performance Optimization, Technical Documentation

PROJECT WORKS

Data Health Report — Python (Flask), Fast API, SQL Server, C#

- Verify the data from any sources and do the necessary correction, data validation, data migration, duplicate detection, data comparison and also migrated this to SQL Server database.

HRIS & Payroll Management System ([Live link](#)) — ASP.NET MVC, SQL Server, Stimulsoft Report

- Automated attendance tracking and salary generation, eliminating manual calculation errors.
- Reduced monthly payroll processing time by 90% through workflow automation.
- Optimized complex SQL stored procedures for reporting and bulk data operations.
- Online Leave management system and approval system, attendance management system, Zakat Calculator, Tax calculation system and return management, Salary advance application, Disciplinary action, Budget management, Loan Application, PF Management etc.

Employee Data Chatbot (Personal Project) — Python • Fast API • OpenAI API

Built an intelligent chatbot allowing users to ask business questions such as:

- Show employees from HR.
 - Highest paid employee.
 - Sales by department.
- Without writing SQL queries.

EDUCATION

B.Sc. in Computer Science & Engineering

2003 – 2007

International Islamic University Chittagong

CERTIFICATION

Microsoft Certified Professional (MCSA)

June 2019

SQL Server 2016 Database Administration

MCID: 17299450

Python (Basic)

June 2026
